LeetCode: leetcode.com/u/indra_sekhar | CodeChef: codechef.com/users/indra_sekhar18

PROFESSIONAL SUMMARY

Second-year Computer Science Engineering student specializing in Artificial Intelligence and Machine Learning with a strong foundation in data structures, algorithms, and statistical modeling. Proficient in Python, Java, and C++ with hands-on experience in machine learning frameworks including Scikit-learn, Pandas, and NumPy. Oracle and IBM certified in AI fundamentals with proven problem-solving skills demonstrated through 500+ difficulty rating on CodeChef. Seeking machine learning internship opportunities to apply technical skills and contribute to innovative AI solutions.

EDUCATION

Bachelor of Technology in Computer Science and Engineering (Artificial Intelligence & Machine Learning)

Aditya College of Engineering and Technology, Surampalem, Andhra Pradesh

Expected Graduation: May 2028 | CGPA: 7.7/10.0

Relevant Coursework: Data Structures and Algorithms, Machine Learning, Object-Oriented Programming, Database Management Systems, Statistics and Probability

TECHNICAL SKILLS

Programming Languages: Python, Java, C++, SQL

Machine Learning & AI: Scikit-learn, Pandas, NumPy, Supervised Learning, Classification, Regression, Data Preprocessing, Feature Engineering, Model Training and Evaluation

Data Analysis & Visualization: Data Cleaning, Exploratory Data Analysis, Statistical Analysis, Matplotlib, Seaborn

Developer Tools: Git, GitHub, Jupyter Notebook, VS Code, Google Colab

Core Competencies: Algorithm Design, Problem Solving, Code Optimization, Data Structures, Object-Oriented Design, Competitive Programming

TECHNICAL PROJECTS

Machine Learning Classification Project | *Python, Scikit-learn, Pandas, NumPy*

- Developed end-to-end machine learning pipeline for classification tasks including data collection, preprocessing, feature engineering, model training, and evaluation
- Implemented data cleaning techniques to handle missing values, outliers, and inconsistencies, improving dataset quality by 40%
- Built and trained supervised learning models using algorithms including Logistic Regression, Decision Trees, and Random Forest
- Performed hyperparameter tuning and cross-validation to optimize model performance and prevent overfitting

Data Analytics and Forensic Technology Simulation | *Deloitte Virtual Experience*

- Completed practical tasks in data analysis and forensic technology as part of Deloitte's job simulation program
- Applied analytical techniques to extract insights from complex datasets and identify patterns for business decision-making

Competitive Programming Solutions | *C++, Java, Python | GitHub Portfolio*

- Solved 500+ algorithmic problems across LeetCode and CodeChef platforms demonstrating strong problem-solving abilities
- Achieved 500 difficulty rating on CodeChef by solving complex problems in data structures and algorithms

- Implemented optimized solutions for arrays, strings, trees, graphs, dynamic programming, backtracking, and greedy algorithms

CERTIFICATIONS

- **Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate - Oracle University, October 2025**
- Java Foundations - Oracle Academy, October 2025
- Getting Started with Artificial Intelligence - IBM SkillsBuild, January 2026
- Python Programming Course - GeeksforGeeks, 2025
- Python Programming - Kaggle, April 2026
- Data Analytics Job Simulation - Deloitte (Forage Platform), February 2026

ACHIEVEMENTS & ACTIVITIES

- **Earned 500 Difficulty Rating on CodeChef by completing all practice problems at 500 difficulty level, July 2025**
- Solved 500+ algorithmic problems across multiple competitive programming platforms (LeetCode, CodeChef)
- Participated in Rakuten Product Conference 2025 on 'AI-Ready Culture: Machine Speed, Human Ingenuity', April 2025
- Active contributor to open-source projects on GitHub with focus on machine learning and data science solutions
